Hanover Chamber Partners with APPI Energy to Offer Members Energy Program

The Hanover Area Chamber of Commerce has chosen Affiliated Power Purchasers International, LLC (APPI Energy) in conjunction with the Pennsylvania Chamber of Business and Industry, to offer its members the Energy Savings Program, a chamber member benefit that reduces and manages energy expenses.

As an independent energy consulting firm, APPI Energy provides commercial and industrial clients the market insight and real-time information needed to make prudent business decisions regarding electricity procurement and natural gas management. Since 1996, APPI Energy has assisted more than 2,500 clients with locations across the United States, including many Pennsylvania businesses.

Since 2002, APPI Energy has worked with PA Chamber of Business and Industry members to manage and reduce the costs of energy expenses. With the changes in the energy markets in Pennsylvania, APPI Energy and the PA Chamber are providing local chambers and their members with the education and resources necessary for the proactive management of the upcoming electricity rate increases.

“We customize solutions for each organization. We provide a thorough analysis, recommend cost reduction options, and manage the entire process. The member always makes the final decision whether or not to implement a solution,” explains APPI Energy’s President Walter Moore.

Gary Laird, president of the Hanover Chamber, states, “Our members have the advantage of APPI’s breadth of experience and knowledge. There are opportunities to reduce costs by utilizing APPI’s energy procurement services. I urge Hanover Area Chamber members to contact APPI Energy to position themselves to reduce costs and improve budget certainty.”

About Hanover Area Chamber of Commerce
